SULFANILAMIDE

MSDS Number: S7658 --- Effective Date: 12/08/96

1. Product Identification

Synonyms: Albexan; albosol; ambeside; p-aminobenzene sulfamide; sulfanilamide purified; Bacteramid; 4-Aminobenzenesulfonamide
CAS No.: 63-74-1
Molecular Weight: 172.21
Chemical Formula: C6H8N2O2S
Product Codes: J.T. Baker: 4079, V153 Mallinckrodt: 0267, 7921

2. Composition/Information on Ingredients

3. Hazards Identification

Emergency Overview

CAUTION! MAY BE HARMFUL IF SWALLOWED OR INHALED. MAY CAUSE IRRITATION TO SKIN, EYES, AND RESPIRATORY TRACT.

J.T. Baker SAF-T-DATA\textsuperscript{(tm)} Ratings (Provided here for your convenience)
Potential Health Effects

Inhalation:
May cause irritation to the respiratory tract. Symptoms may include coughing, sore throat, labored breathing, and chest pain.

Ingestion:
Large oral doses may cause irritation to the gastrointestinal tract. Reported side effects include nausea, vomiting, fever, cyanosis, dizziness, dermatitis, acidosis, hepatitis, and psychosis. May affect function of bone marrow, kidneys, liver or heart.

Skin Contact:
May cause irritation with redness and pain.

Eye Contact:
May cause irritation, redness and pain.

Chronic Exposure:
No information found.

Aggravation of Pre-existing Conditions:
Hypersensitivity reactions may occur in some individuals with symptoms of skin rash, hives, and serum sickness. Some sulfonamides may produce skeletal defects to the unborn.

4. First Aid Measures

Inhalation:
Remove to fresh air. Get medical attention for any breathing difficulty.

Ingestion:
Give large amounts of water to drink. Never give anything by mouth to an unconscious person. Get medical attention.

Skin Contact:
Immediately flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention if irritation develops.

**Eye Contact:**
Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get medical attention if irritation persists.

---

### 5. Fire Fighting Measures

**Fire:**  
As with most organic solids, fire is possible at elevated temperatures or by contact with an ignition source.

**Explosion:**  
Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

**Fire Extinguishing Media:**  
Water spray, dry chemical, alcohol foam, or carbon dioxide.

**Special Information:**  
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.

---

### 6. Accidental Release Measures

Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Sweep up and containerize for reclamation or disposal. Vacuuming or wet sweeping may be used to avoid dust dispersal.

---

### 7. Handling and Storage

Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Protect from light. Isolate from incompatible substances. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

---

### 8. Exposure Controls/Personal Protection

**Airborne Exposure Limits:**
None established.

**Ventilation System:**
A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

**Personal Respirators (NIOSH Approved):**
For conditions of use where exposure to the dust or mist is apparent, a half-face dust/mist respirator may be worn. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. **WARNING:** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:**
Wear protective gloves and clean body-covering clothing.

**Eye Protection:**
Use chemical safety goggles. Maintain eye wash fountain and quick-drench facilities in work area.

---

### 9. Physical and Chemical Properties

**Appearance:**
White powder.

**Odor:**
Odorless.

**Solubility:**
7.5 gm/100gm water at 25°C (77°F).

**Density:**
1.08

**pH:**
(neutral to litmus)

**% Volatiles by volume @ 21°C (70°F):**
0

**Boiling Point:**
No information found.

**Melting Point:**
165°C (329°F)
10. Stability and Reactivity

**Stability:**
Stable under ordinary conditions of use and storage.

**Hazardous Decomposition Products:**
Burning may produce carbon monoxide, carbon dioxide, sulfur oxides, and nitrogen oxides.

**Hazardous Polymerization:**
Will not occur.

**Incompatibilities:**
Strong acids and strong oxidizers.

**Conditions to Avoid:**
Light and incompatibles.

11. Toxicological Information

Oral rat LD50: 3900mg/kg Investigated as a tumorigen, mutagen, reproductive effector.

No information found.

**Environmental Toxicity:**
13. Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

Not regulated.

16. Other Information

NFPA Ratings: Health: 1 Flammability: 1 Reactivity: 0

Label Hazard Warning:
CAUTION! MAY BE HARMFUL IF SWALLOWED OR INHALED. MAY CAUSE IRRITATION TO SKIN, EYES, AND RESPIRATORY TRACT.

Label Precautions:
Avoid contact with eyes, skin and clothing. Avoid breathing dust. Keep container closed. Use with adequate ventilation. Wash thoroughly after handling.

Label First Aid:
If swallowed, give large amounts of water to drink. Never give anything by mouth to an unconscious person. Get medical attention. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Get medical attention if irritation develops or persists. If inhaled, remove to fresh air. Get medical attention for any breathing difficulty.

Product Use:
Laboratory Reagent.

Revision Information:
Pure. New 16 section MSDS format, all sections have been revised.
