OFFERING HELP

Do not stop when you see a “SEND HELP” card displayed or other signals of distress, such as a raised hood or a handkerchief tied to an antenna. If you have a cellular phone, call one of the numbers listed in this brochure and report the incident. If not, proceed to the next town or service area and notify someone who professionally renders assistance, such as a garage attendant or law enforcement officer. Take no chances. Your personal safety is too important!
To protect and assist stranded motorists.
To avoid traffic congestion by removing disabled vehicles from traffic lanes.
To assist KDOT and local law enforcement agencies in preventing incidents that endanger motorists and disrupt normal traffic flow.
To help troopers perform their law enforcement duties without distraction.

PROGRAM GOALS

- To protect and assist stranded motorists.
- To avoid traffic congestion by removing disabled vehicles from traffic lanes.
- To assist KDOT and local law enforcement agencies in preventing incidents that endanger motorists and disrupt normal traffic flow.
- To help troopers perform their law enforcement duties without distraction.

THE PROGRAM

Disabled vehicles on our major highways cause numerous problems when it comes to public safety. To address these problems, the Kansas Highway Patrol (KHP) and the Kansas Department of Transportation (KDOT) established a Motorist Assistance Program.

The Motorist Assistance Program includes eight service vehicles: Four in the Kansas City area, two in the Topeka area and two in the Wichita area. Each service vehicle is staffed by a Kansas Highway Patrol civilian employee. They carry a variety of equipment for helping disabled vehicles, including four-way wrenches and jacks for changing tires, jumper cables, gasoline cans and other small tools.

WHAT TO DO IF YOUR VEHICLE BREAKS DOWN

The KHP and KDOT are concerned about your safety. Performing routine maintenance on your vehicle can help prevent your car from breaking down. However, if your car should become disabled, use the following tips until help arrives.

- Park your vehicle as far off the busy roadway as possible.
- Turn on your four-way emergency flashers (hazard lights).
- Stay in your vehicle until help arrives, especially at night or in inclement weather.
- If someone stops, crack your window and ask them to phone the police for assistance.
- If you must leave your vehicle along the highway, notify the police, sheriff or KHP of its location and the circumstances.

The Motorist Assistance program is not intended to replace or interfere with services provided by private businesses. Instead, it provides only the immediate services necessary to ensure the safety of stranded motorists and roadway traffic.
