

2008 Annual Mid-American Environmental Engineering Conference

Event: A one-day annual conference for graduate students of environmental engineering and science from five universities to meet and present their research. The faculty advisors of these students will also attend.

Time: Oct. 25, 2008 (Saturday), 8AM-5PM

Location: Southern Illinois University Edwardsville
School of Engineering, Auditorium (EB 1033)
Edwardsville, IL 62026

Host:

- Southern Illinois University Edwardsville

Participating Universities:

- Washington University in St. Louis
- Missouri University of Science and Technology
- University of Missouri – Columbia
- Southern Illinois University Carbondale

Sponsor:

The Metropolitan St. Louis Sewer District

The Metropolitan St. Louis Sewer District is responsible for the interception, collection and treatment of wastewater, as well as stormwater management. MSD serves all of St. Louis City and approximately 80 percent of St. Louis County. MSD currently operates seven wastewater treatment facilities, treating a combined average of 330 million gallons of sewage per day.
